***Our Mission Statement:***

*SOUL Theatre Incorporated creates community based, high quality productions of a professional standard that are entertaining and thought provoking. We represent the misunderstood, the disadvantaged and the disenfranchised by educating and enlightening our audience with confronting attitudes of narrow minded thoughts, bigotry, injustice and ignorance.*

Dear SOULers,

At last, the founder of Soul Theatre Inc., Alicia Liley has managed to establish a monthly e-newsletter to keep you all informed about SOUL.

We are all preparing for our next production to be incorporated into The Melbourne Fringe Festival. This will be from September 29 to October 4, 2015. So please place this in your diaries now!!

**We truly hope to see you there!**

*Climamania Festival of Short Plays and Music* is to be at The Brunswick Mechanics Institute, Corner of Sydney & Glenlyon Roads.

Tickets go on sale from August 5 via the Fringe Festival website.

Alicia deeply apologises for the extent of time since our last work. There have been illnesses and serious distractions that have been holding up SOUL's progress so we do apologise.

“But we have to move forward Honeys!”

So we'll see you later this year!!!

*P.S.- You have all given SOUL your contact details, even if it's been since 1993 so we hope that you'll remain supportive of our mission and attend our events!*
